LAST CALL FOR THE JETPORT AIR SHOW - 9 to 4 June 11, 9 to 3 June 12

All members are reminded that we need lots of models to put on display throughout the show - you can leave them for the weekend or bring them with you and take them home when you leave. Either way, the more planes we show off the better! Models to be hung overhead need to be delivered by noon on Friday; all others should come in on Saturday morning or when you get there.

If you can't spend a lot of time at the booth please come in for as long as you can and see the show - Bill Reeve has several club members doing demo flying of planes and helicopters throughout the weekend, except Saturday morning when the plane pull is being run.

Come and support the club's community relations effort!

A couple of oversights from previous newsletters:

**We did not mention the winner of show and tell at our May Meeting.
The winner was Jay Wiley with his Super Skybolt.**

Also, we had a Numb Thumbs Fun Fly scheduled in February but the weather turned out to be very inhospitable! As you may remember, we had LOTS of snow back then and a member volunteered to plow out the parking area for us. Many thanks to Jeff Lindscott for a great job!

Planes, Planes, Planes We need you to bring your planes for the display table.

These need to be hung on Friday between 10:00 a.m. and 1:00 p.m. - before the private dinner that the Jetport is hosting for the guest pilots. The jetport will provide ropes with D rings hanging from the ceiling. We need to provide the slings to attach our planes to the D rings.
